

BARCELONA | WHEN STYLE BECOMES A CLASSIC

Bienvenido a Barcelona! Furniture as homage to a metropolis that creates a place to enjoy the passions and pleasures of life, this is an urban collection full of dynamic presence that confidently combines tradition and modernity, as well as strength and elegance.

Smart shapes and generous dimensions form an exciting contrast to the extraordinarily subtle weaving pattern. The seating designs are complemented by tabletop surfaces highlighted with satin-finished glass. There is also an oversized dining table for larger group gatherings offering room for up to eight good friends.

White, the color evoked by light and representing peace and calmness in modern design and fashion, also reflects a longing for lightness and grace that is no longer exclusive to purists. The BARCELONA collection, a genuine DEDON classic, is available in bronze and now a new color, chalk.
